

PRODUCTION AND DISTRIBUTION OF RUBBER, RUBBER-METAL AND PLASTIC ITEMS

Company

Founded in **1984** as a manufacturer of rubber and rubber metal parts, Mar-Gom s.r.l. has carved out an important role in the national and international production of rubber and plastic products over the years.

Design & Production

Mar-Gom S.r.l. is able to Study, Design and Produce customized technical items: the goal is finding solutions to every specific need thanks to the know-how and its versatility, starting from customer's drawing or reference sample, following technical specifications.

Molds for plastic and rubber products

Using the most modern technologies, Mar-Gom s.r.l. is able to produce molds of various and complex shapes and to guarantee high quality and speed of execution. Experience allows to identify the most suitable solution using different molding systems such as: INJECTION, COMPRESSION, TRANSFER MOLDING.

Injection and Compression Molding Units can boast various machines, in terms of tonnage, size and technology, in order to guarantee efficiency, quality and versatility.

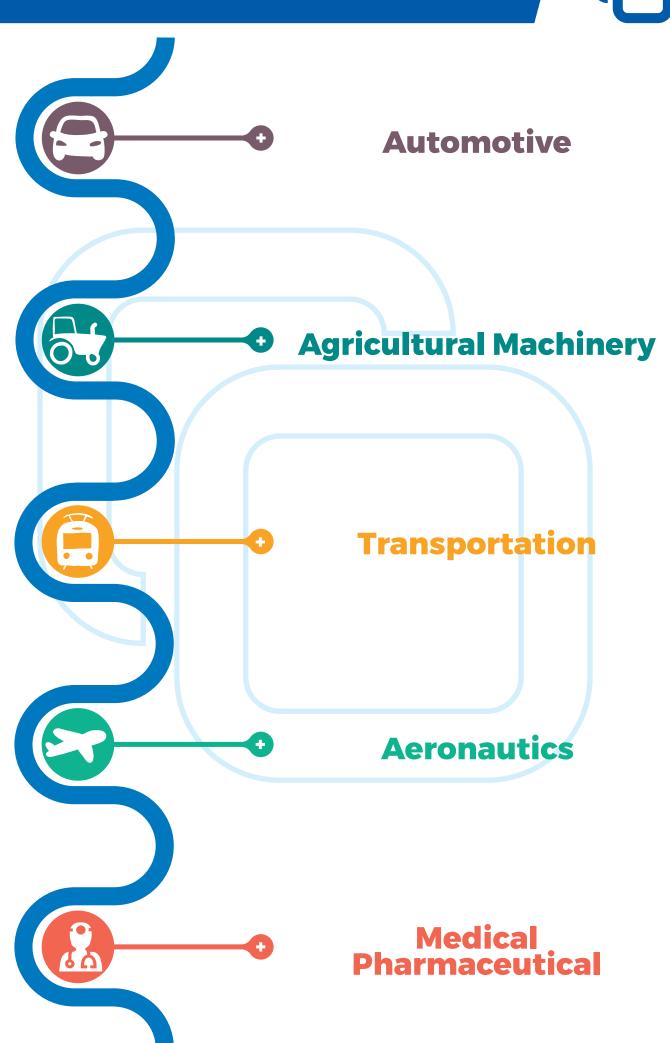

ISO 9001:2015 Quality Management System

ISO 9001:2015 manages to schedule, analyze and verify all the activities involved in production process and company's management, having the daily mission of improving them.

One of the most important aims is to gain TRUST from customers and partners. Due to this objective, Mar-Gom s.r.l. has introduced an AI model that analyze and monitor all the performances: design, production, trading, logistic, R&D, strategies and company policy.

Fields of Supply

Design

Design phase is both direct and reverse.

The direct case involves the creation of pilot molds starting from customer's enquiries and requirements.

Reverse engineering service offered by Mar-Gom allows the 3D CAD reconstruction of an object through the digital acquisition of the original shape in 3D. The scan enables to recreate the object or to use the 3D-model file in design.

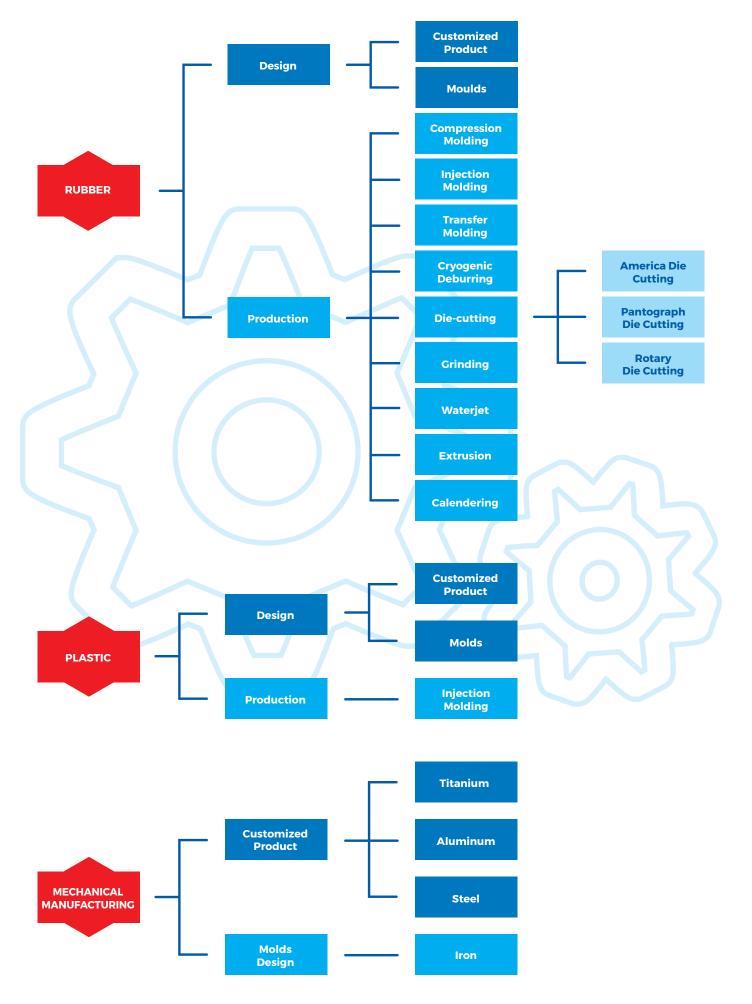

Production

Products

Rubber and Plastic Molded Parts

MOLDED RUBBER PARTS

- \cdot GASKETS
- 0-RINGS
- SUCTION CUPS
- \cdot CAPS
- \cdot BELLOWS
- BUMPERS
- RUBBER-METAL PARTS
- \cdot SLEEVES

MOLDED EXPANDED RUBBER PARTS

- FRAMES
- GASKETS
- · EXPANDED METAL RUBBER PARTS
- · EXPANDED NYLON RUBBER PARTS

MOLDED PLASTIC PARTS

Rubber Sheets and Mats

TECHNICAL PLATES OF RUBBER

- · ANTI-ABRASIVE
- WITH TEXTILE INSERTION
- RUBBER SHEET FOR CONVEYOR BELTS
- PARA
- DIELECTRIC
- NBR
- NEOPRENE
- ANTACID EPDM
- · VITON®
- · SILICONE
- · VULKOLAN®

RUBBER MATS

- · MEDIUM/FINE/BIG RIBBEDMAT
- · CHECKER MAT
- \cdot WIDE ROOVE MAT
- · COIN MAT
- · RISE MAT

CURTAINS IN FLEXIBLE PVC

- PVC
- \cdot NETTED PVC

JOINTS ASBESTOS - FREE GLASS FABRICS/TEFLON WOVEN GLASS/SILICONE TNT FABRICS CUSTUMIZED GASKETS AND DRAWINGS

Rubber and Plastic Profiles

RUBBER AND PVC PROFILES

- DUTRAL (EPDM)
- NEOPRENE (CR)
- \cdot NBR
- · SILICONE RUBBER
- PVC
- \cdot soft PVC

ANIMATED PROFILES

FLOCKED PROFILES

TUBES

- DUTRAL (EPDM)
- NEOPRENE (CR)
- $\cdot NBR$
- SILICONE RUBBER
- \cdot POLYURETHANE
- PVC

EXPANDED RUBBER PROFILES

EXPANDED CORDS AND TUBES

STANDARD AND CUSTOMIZED ITEMS

Gaskets and Seals

GASKETS 0/RINGS

in compounds:

- \cdot NBR
- · VITON
- SILICONE
- EPDM

measurements in inches and metrics

CALIBRATED ROPE

in compounds:

- NBR 70
- EPDM 70
- · VITON 75
- NEOPRENE 70
- SILICONE 60

LIP SEALS

in compounds:

- NBR
- · VITON
- · POLYURETHANE

V-RINGS GASKETS

in compounds:

- NBR
- · VITON

SEALING RINGS FOR ROTATING SHAFTS in compounds: • NBR

· VITON

PTFE EXTRUSION PROTECTION RINGS WHEELS

IN SELF-CENTERING RUBBER BADERNE

GASKETS CUT TO SHAPE

GASKETS MOLDED TO DESIGN

Anti-vibration Mounts

CYLINDRICAL ANTI-VIBRATION MOUNTS BUFFER PADS IN THE VARIOUS VERSIONS:

• MALE-MALE

- MALE-FEMALE
- FEMALE-FEMALE
- PARTICULARS
- · FOOT

CUSTOMIZED SUPPORTS

LEVELLING FEET

SPRING WASHERS

SILENTBLOCK ANTI-VIBRATION BUSHINGS

ELASTIC SUPPORTS

RUBBER METAL PLATES

- · ANTIOZON RUBBER
- STAIN-RESISTANT RUBBER
- NBR RUBBER
- WHITE RUBBER
- · SILICONE RUBBER
- HIGH TEMPERATURE RUBBER

Pneumatic

ACTUATORS

- \cdot CYLINDERS
- \cdot CLAMPS
- \cdot ELECTRICAL ACTUATORS
- SENSORS
- TRANSDUCERS

GROUPS

- \cdot SYNTESI
- $\cdot \, \text{BIT}$
- SKILLAIR
- \cdot ONE

VALVES

- \cdot VALVES
- · VALVES ISLANDS

FITTINGS

- · AUTOMATIC FITTINGS
- · STAINLESS STEEL FITTINGS
- FITTINGS WITH UNF THREADS
- · FITTINGS WITH NPT THREADS

Hose Ties and Band-IT® Tapes

HOSE CLIPS FOR CLAMPING

• WITH A SCREW

- DIN 3017 BAND WIDTH 12 MM
- DIN 3017 BAND WIDTH 9 MM
- TWO-WIRE SCREW TYPE
- WITH A PERFORATED BAND
- FOR HIGH TIGHTENING TORQUES
- AT CONSTANT TORQUES
- COLLAR WITH BOLT
- DOUBLE CLAMPING COLLAR

• WITHOUT SCREW

- EAR CLIP SINGLE/DOUBLE
- EAR CLIP LINED
- A HOOK
- SNAP
- DOUBLE TAPE

BAND-IT® SYSTEM

- TAPES
- BUCKLES

HOSE TIES FOR WIRING

 \cdot NYLON CABLE TIES

HOSE TIES FOR FIXING

- RUBBER CLIP DIN 3016
- MCABLE CLIPS

Technical expanded Parts

- ANTI- VIBRATIONS
- THERMAL INSULATION
- · SOUND INSULATION
- \cdot WATER TIGHTNESS
- \cdot AIR TIGHTNESS
- · DUST TIGHTNESS
